

El Paso County's Early Childhood Council

El Paso County Community Resource Directory

Colorado Shines recognizes child care providers that keep current lists of community resources readily available for participating families. This guide is being provided to families and child care providers by Alliance for Kids, El Paso County's Early Childhood Council. This is not meant to be an exhaustive list and we invite you to forward any valuable resources you feel would be important to include in future editions to AMcKibben@allianceforkids.org.

Here are some additional suggestions for expanding the practice of communicating resources to families:

- Highlight some of these directory resources and contacts within a parent newsletter.
- Highlight a few of the most used resources in your community by posting on a bulletin board within classrooms; put a sheet in lockers/cubbies. Include a note that saying, "Here are some resources available to help families in our community. Please let us know if we can do anything to help you access additional resources for your child and family."
- During parent/teacher conferences, have your Community Resource Directory available to show parents. Ask parents if they need assistance with accessing a resource.
- During open houses and other parent events, ask/invite parents who have used resources in the community to share their experiences.
- Ask parents to share community resources that have benefitted their family.
- If your program has a parent group or advisory council, share the Community Resource Directory with members.
- Connect your families with Alliance for Kids and FamilySPEAK (details on next page).

Mission:

The Alliance for Kids will serve as a vehicle that brings together agencies and individuals to work collaboratively on a seamless system of care for young children and their families in El Paso County.
