

We're Here For You

Partners With Families, Educators,
And Medical Professionals To Unlock
The Full Potential Of Every Child!

Thank you for considering the Shandy Clinic for your family's therapy needs. We know the challenges your child currently faces impact your whole family, often bringing chaos and disruption to the home. It is our desire to partner with you to help unlock the full potential of your child.

Since 2007 we have grown from one therapist (myself) to over one hundred, in order to offer you and your child the best TEAM of highly trained therapists. We are still committed to offering you the highest level of service, integrity, efficiency, and excellence as the day we began, doing all we can to bless those who walk through our doors. You deserve someone who will fight for you and your family, for peace in your homes, and for dreams reimaged. Please allow us to help change your life for the better.

Autism Diagnosis

Autism Diagnosis Deserves The
Highest Level Of Confidence

We have a diverse team of highly skilled professionals that provide the greatest level of accuracy and insight.

Clinical Psychologist | Speech Therapist
Physical Therapist | Occupational Therapist

STEP 1

Request a referral from your provider for an autism evaluation.

STEP 2

Meet with our multidisciplinary team of evaluators over three to four sessions for a comprehensive assessment tailored to the unique needs of your child.

STEP 3

Review final comprehensive report detailing conclusive results and recommendations geared toward building upon your child's strengths in order to best address areas of need and treatment goals. Discuss resources in your community that are available to you.

Exceptional Therapy
For Exceptional Children

At the Shandy Clinic, we have partnered with thousands of families to help unlock their child's success through our superior multidisciplinary approach. Our team of specialists look forward to working with you and your child to ensure excellence of care and convenience in one location.

Multidisciplinary Approach

Speech Therapy

Helping your child to communicate by improving articulation, voice, fluency (the way words sound), and language (how we express and understand messages).

Physical Therapy

Helping improve your child's movement by addressing their balance, coordination, strength, endurance, and overall motor development/functioning.

Occupational Therapy

Increasing your child's success in daily living by improving sensory processing skills, fine motor skills, self care skills, self regulation skills, overall movement, cognition, and perception.

Applied Behavior Analysis

Utilizing an evidence based model to teach new skills and minimize challenging behaviors that could make learning more difficult. Improving a child's overall quality of life and independence.
